"STRONG AND INDEPENDENT WOMEN."

The Emergency Association A Stepping Stone To The Equal Rights' Association.

WOMEN ARE NOT PLASTER SAINTS.

Mrs. Lida Calvert Obenchain (Ella Calvert Hall), author of "Bully Ann's Experience" and other tales, one of Kentucky's most brilliant writers, given in the WOMAN'S JOURNAL, a Boston paper, last week her views as to the bearing of the recent political disturbances in Kentucky on woman's ballot. It will be remembered that at the late Congressional hearing, a Northern opponent of equal rights for women referred to the shooting of Goebel as a conclusive objection to letting women vote, and Mr. Charles R. Sanders used the same argument in the recent debate on equal suffrage in the Massachusetts Legislature. Mrs. Obenchain says:

A few weeks before our last, Equal Rights Convention I had a letter from Mrs. Mary C. Roark, asking me, among other things, for my idea of the lines of suffrage work that needed special attention in this State at the present time, as nearly as I can remember, my reply was as follows:

The political conditions in our State are such that I do not see how any woman with an atom of common sense can say that she does not want to vote. If some divine power would only rain down a little common sense on the women who need it, any line of work would lead quickly to woman suffrage, without that divine intervention, no line of work can possibly prove effective. This sounds pessimistic but I do not feel pessimistic at all. I believe that woman suffrage is near at hand, but it is going to be forced on the women of Kentucky by some unexpected combination of circumstances, just as it was forced on the women of New Orleans. The average woman has no sense of justice. She will have to learn the expediency of woman suffrage before she sees its justice.

When I wrote these words, I did not think that their fulfillment lay very near at hand, and that it would be written in blood on the pages of Kentucky's history. A few weeks later came the assassination of Goebel, the climax of all Kentucky's bloody deeds. The "unexpected combination of circumstances" had occurred at last.

A few weeks later still, and the Louisville Courier Journal announced that "The Women's Emergency Association" would hold a meeting "for the purpose of directing the attention of women to the importance and necessity of using their influence in behalf of good citizenship." Here was the fulfillment of my words. Goebel's death had not only reunited his party, but it had awakened the women of his State to realization of their civic responsibilities.

The mass meeting was held and the speakers were the most eminent among the city's clergy. There was a great amount of eloquence and enthusiasm, but between Bishop Dudley and Rev. Carter Helm Jones the women of Kentucky will have a hard time finding out who they are, and what they are, and where they are "at" in this political confusion.

First came Bishop Dudley who said that all the good qualities of man are due to woman, and "that the mightiest, bravest, and best men in this country are just as good as the women want them to be," in which case we women are certainly a very bad lot. To a suffragist, these conflicting statements are very suggestive. If we women are as powerful and as good as the Bishop says we are, I would like to ask him how it happens that affairs have gotten into such a bad condition. Then, again, if our "ideals" are to blame for all this political trouble, as Mr. Jones asserts, what is the use of calling on us to purify politics? A mass meeting of angels and

archangels should have been called to purify the ideals of women, before they can be expected to purify politics. If as Bishop Dudley says, "all the good qualities of men are due to women," what part does man play in the scheme of evolution? Is he the source of all evil? Is he a mere non-entity, capable of receiving good, but not capable of transmitting it? Is he a law and giver of glory of heretofore that the Bishop presents and no woman who respects her husband or her father will be likely to assent to the proposition that all the good in humanity is derived from woman. Followed out to their logical conclusion, Bishop Dudley's statements mean that the best thing Kentucky fathers can do is to lie down and die, and leave the rearing of their sons entirely to the mothers of the state—which would be a very undesirable condition for all concerned. Let us see if there is not some middle ground between the eulogy of the Bishop and the depreciation of Mr. Jones.

The attitude of these gentlemen towards women in politics reminds me of England's attitude towards her common soldiers, set forth in one of Kipling's "Barnum Koon Ballads":

Oh, it's Tommy this an' Tommy that, an' Tommy, go away!
But it's "Thank you, Mister Atkins," when the band begins to play,
For it's Tommy this an' Tommy that, an' Tommy, go away!
But it's "Special train for Atkins" when the troops are on the parade.

Then it's Tommy this an' Tommy that, an' Tommy, go away!
But it's "thin red line of heroes," when the drums begin to beat,
For it's Tommy this an' Tommy that, an' Tommy, go away!
But it's "Chick him out, the brute!" when the guns begin to shoot.

Ever since Kentucky became a State, women have been ordered to "go away," to "wait outside," and to "fall behind," whenever there was a political affair on hand. But now when "the drums begin to roll," and the "guns begin to shoot," we are suddenly ordered to the front, and informed that we are the saviors of our country! And it is darkly intimated that if we render our fellow men any assistance in their trouble, it is no more than we ought to do, since we are mainly responsible for it all. You perhaps remember the protest of "Tommy Atkins": "We aren't nothin' red 'erows' and we aren't no blackguards, too, but single men in barracks; most remarkable like you!" And if sometimes our conduct isn't all your fancy points, Why single men in barracks don't grow into plaster saints!

We women are not the "plaster saints" that Bishop Dudley would make us out to be, nor are we as bad as the other side sees us. We are just plain folks, and we are just as good as the women want them to be, in which case we women are certainly a very bad lot.

The Rev. Carter Helm Jones finds that the "ideals" of women are at the bottom of all this political trouble, and if women will only "raise their ideals," the millennium will begin right here in Kentucky. Undoubtedly the women are wrong in a great many ways, their ideals included. Let women raise their ideals by all means. But what shall be said of the ideals of men in a State where the disfranchised class is composed of "minors, idiots, lunatics, criminals, and women." The most reasonable utterances at the mass-meeting were from the men who questioned our civilization. "Are we a

civilized people?" said Mr. Temple Bodley; white Rabbi Moses rightly declared that we are in a certain sense "pagans." To Mr. Bodley's question there is but one answer. It has been only a few years since the Equal Rights Association, after ten years of hard work, swept from the statute books of Kentucky every vestige of its barbarous common law of England as it related to the property rights of married women; and there are still laws of our statute books laws relating to women and children, that would disgrace the pagans. I think that centuries hence, when a nobler race reads the dark page of history that Kentucky has recently written for herself, the comment will be: "But what could be expected from people whose ideals of womanhood were so low that their women were classed, politically with 'minors, idiots, lunatics, and criminals'!"

Grieving that the ideals of women are wrong, and that these ideals have caused all the political trouble in Kentucky, still we women cannot justly be blamed; for women's ideals have always been misinterpreted by men. Men have said to women: "Thus must you think, thus must you speak, thus must you act, and women have obediently thought, spoken, and acted in accordance with the orders of their leaders. Woman's ideal of government was framed by man; her ideal of home was made by man; and to cap the climax, she was not even permitted to make an ideal of herself. Her ideal of womanhood even was made by man. Man said to her: "The ideal woman is one whose sphere is the home. Wifehood and motherhood are the highest honors to which she aspires. She must be a good cook and a good housekeeper, and a good housekeeper. She must keep the buttons sewed on, and darn the socks, and obey her husband, and always meet him with a smile, and it shall only do this we men will attend to everything outside the 'sphere' and all will be lovely." The women of Kentucky, with a few unimportant exceptions, have kept this ideal of womanhood enshrined in their inner hearts. They have bowed down to it and worshipped it daily. They have kept within their sphere, and they have shuddered with horror at the mere suggestion of voting, and now, if their ideals are to blame for the murder, the assassination, the political anarchy that disgraces Kentucky, let us all be just enough to go one step farther in the chain of causation of the Ohio to the mouth of the Sinking Creek, where they anticipated the exploration of the adjacent country. Here they embarked into the midst of a hand of hostile savages. HARDIN'S FORT.

A Cloverport Citizen Has In His Possession A Piece Of The Last Log That Was Used In Its Construction.

A REMARKABLE CAVE LAYS BELOW THE FORT.

A representative of the News casually dropped into the real estate office of Dr. R. L. Newsum, Monday, and was shown a piece of log three feet in length that came out of "Hardin's Fort," erected one hundred and twenty years ago near Hardinsburg, the county seat of this county, by the celebrated Indian fighter, Gen. William Hardin.

The piece of timber is partially decayed, but in all probability will last many years yet. There are a few of the old style nails projecting about three quarters of an inch on the outside. As this is the last of the logs, the owner prizes it as a valuable relic.

Gen. William Hardin was a pioneer of this county and a frontiersman of the true type. He and a few of his neighbors, among whom were the Claycombs, Braashears, Brummers, Bargins, Hysenues, Rices, Jollys, Barrs, Deans, Spencers and others, penetrated the wilderness of Kentucky, about the year 1780. Gen. Hardin and three other companions, the names of whom cannot be recalled, were in search of a suitable location for his colony. They reached the falls of the Ohio, but finding a settlement and the nature of the country was too swampy, they re-embarked and floated down the placid waters of the Ohio to the mouth of Sinking Creek, where they anticipated the exploration of the adjacent country. Here they embarked into the midst of a hand of hostile savages. The Largest Attendance In Years And A Lively Meeting.

TEMPERANCE PEOPLE REMONSTRATE.

Our City Dads met in regular monthly session Monday night at the City Hall. Mayor Barry and all the members were present with the exception of Councilman Mattingly.

Mayor Barry called the body to order at the regular hour.

Clerk Towsy read minutes of the previous meetings, which stood approved.

The various committees were called upon to report, but had no reports to make. Claims and accounts were next on docket and all stood approved.

The attendance at this particular meeting was the largest since the installation of this body. On the 28th day of last month a local option election was held in precincts 1 and 2. The "wet" were successful and applications were at once posted for licenses to sell in precinct No. 2.

"Mug" Severs, a member of the law firm of Murray, Murray & Severs, was in attendance on behalf of Popham & Elder for license to retail liquors in precinct 2. He pleaded before the body on the legal right of granting said license and hoped they would act on the matter wisely and justly.

F. N. DeHuy presented a petition on behalf of the temperance people with the signatures of over 100 names requesting the body not to grant license until the matter could be fairly settled in the courts as to the legality of said election in those two precincts.

This produced a great deal of excitement and the lawyers and councilmen's heads went close together in consultation. After considerable debate over this question, it was decided that the Mayor should select three members of the body to act. He named the following gentlemen: James G. Harris, S. H. McCracken and Eugene Haynes, who with City Attorney, James R. Skilman, closed themselves in the adjoining room to discuss the question and offer a report. They were out probably twenty five minutes. On returning

Councilman Harris read a report to accept the matter as complete.

Councilman McCracken read his report requesting the granting of licenses with the provisions that a license first be obtained from the county judge. A vote was then taken on the last report which received a second but the sufficient number of yeas was not heard.

This matter was dropped for a few moments until Councilman Hudson could consult with the City Attorney. He returned and said "I have one request to make before I vote. If the parties will sign a written agreement binding themselves not to retail liquors on Sunday, I will vote with the affirmative." Mr. Popham on behalf of the firm of Popham & Elder agreed to sign the article.

The question of advertising for water works and franchises for an electric light plant was ordered to be placed in the different trade journals by the clerk. The Council then adjourned.

Does It Pay To Buy Cheap? A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boecher's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. For sale by—A. R. Fisher.

A Probability of Cloverport Having an Ax Handle Factory.

Messrs. John Filand and E. A. Epperson, representatives of the Mount City Handle Factory, were in the city last week with a view of establishing a similar factory here. Should these gentlemen decide to erect a factory at this place, the institution will give employment to 40 or 50 men. It is with the citizens and business men to perfect its location. Capitalists must have encouragement and inducements. The location and free taxation have been tendered them, but on the site stands a building which with a small amount of money can be put in suitable repairs for the operation of this plant.

I think even young lovers should call a halt when old Gen. Joe Wheeler goes "prayer" and smiles and blinks over a rumor of his marriage with Mrs. Childs. The gallant veteran may be enjoying many dreams of childhood again. Pardon his capriciousness.

A picture of Mrs. Anna M. Knighton appeared in Saturday's Louisville Post as a true daughter of the Confederacy. Her son, John C., was in the Confederate army and died after the struggle was over. He lies in Cave Hill with a Confederate flag flying over his headstone. Mrs. Knighton is 82, is a resident of Louisville and will wear a suit of gray during the coming reunion and a scarf of red and white. We all (the older class) know Mrs. Knighton here as she was a teacher Miss Polly Bentley's school on Doe Run, Meade county, the teacher for several years. She did not desert for the famous John H. Morgan and later enlisted as a nurse in the Confederate Army.

Aha! Mayor Jones, of Toledo, has given up the socialistic scheme he inaugurated in his business a few months ago. He found that some of the men employed in the establishment were as anxious to work as others, or he decided that they should not have the same compensation or profits that went to the industrious employees. Mayor Jones should have known that it is utterly useless to try to induce all men to work alike. I want to tell his majesty that competent men and incompetent men in the same establishment will work for the same compensation or profits that went to the industrious employees. In the May escapade in Philadelphia is a most interesting little story of the "Wife in the Philippines." We have all heard and read so much of the remarkable city of Manila that a real chatty, conversational letter by a bright woman is much enjoyed.

Mrs. Funston, (we have heard of her gallant husband), went to Manila as a bride with two other brides to meet their husbands in 1898. She was surprised to see the fine stone quay and splendidly paved streets and the remarkable number of vehicles with horses attached, little larger than dogs, thin and sore. She speaks of the lay, the gorgeous sun-set, and the picturesque costumes of the women. American women were scarce there in '98 and great crowds of the natives would follow Mrs. Funston and her friends when on the street. The heat is intense from nine to four but by five the whole city turns out on the Plaza in hand given concerts. Mrs. Funston is a pleasant writer.

The press seems to be as unanimous as the Senate Committee on privileges and elections in the opinion that William Andrew Clark, Democrat of Montana, ought to be denied his seat in the Senate. His seat should be declared vacant, indeed, if it is true that he gained it by large expenditures in connection with his election which presented a free choice of a United States Senator by the Montana Legislature. But if on the other hand, it is a conspiracy concocted by his political enemies, then let the "hammer of truth" prove it false. But surely, if all the Senate seats were declared vacant that was obtained by the use of money, Mr. Clark would not be the only one to go. Aren't there many who have bought their seats, I wonder, but who have not been "hammered out"—that is, officially? A year ago Indiana elected a young man without money. Illinois, we are told, never knew the sale of a seat nor Iowa. I believe this is just as it should be. The great difficulty with which we now have to deal is the use of money in ways that do not challenge the public notice, but which all the same rules out a poor man of ability and trust and merit. The Senate is a "club" for millionaires who can reach it through their purses. The "copper king," of Montana, is not alone. Mr. Clark was only more open, more bare-faced and failed to cover up his tracks or burn the bridges behind him. Hence the committee was obliged to declare his seat vacant.

I am immersed in Rudyard Kipling's "The Light That Failed." I like it immensely. "Soldiers Three." "The Gate of the Hundred Sorrows" ranks well with me. I like Kipling and I don't like him—paradoxical, isn't it? But he's poetic, so pathetic, so tender, and just as cold as another. One can cry over his "Baa, Baa, Black Sheep" on some pages and on the next let forget tears for indignation. Upon the whole Kipling will tell the world long after his light has faded on this shore. The man who has mind to some English views of Miss Johnston's new story, "To Have and To Hold," which in England has been re-christened "By Order of the Company" in accordance with the usual British custom to show decided appreciation. "To Have and To Hold" is as popular in England it seems as in America and proves that women are interestingly active in modern fiction of

which for two years America has been furnishing the best. The historical novel is most popular just now of which "To Have and To Hold" takes precedence. Then comes "Richard Carvel" in which the story never flags but keeps the reader or hypnotized as it were from Alpha to Omega. "Ivanhoe" Prof. Ray, of Berea, Ohio, would suggest a work of art instead of such a sublimated form of artifice but we would remind the Professor that this is decidedly a novel—the idea is sweeping over us and that we are studying an admirable type of cold life with some strong characterization. We forbear critical observations because these are the works of fiction. This title will assuage after a bit, no doubt, when an aesthetic will regard it. Ray is young enough to "bide-me" till it comes. I will have "shuffled off this mortal coil," perhaps, so I'll not begin to make preparations to meet it. Coming down to earth, I notice the play of 1900 is being produced in the Western States (London) which says some seven hundred persons of all ages will appear in the representation this year. The play house at Ober-Ammergau will hold 8,000 people. The play runs through May, June, July, August, so many each month and the performance is from 8 a. m. until 5 p. m. I have often wondered if the Passion Play is right—and I wonder yet if such scenes from our dear Lord's life should be portrayed or impressed by mere mortals. From this sublime height I step to the Paris Exposition to find fault with the space allotted to American artists. It will hardly accommodate one tenth of the pictures that competent men in the American art. I see that our greatest painters, Whistler and Sargent are to enter competition. This united space is bound to be unsatisfactory—they will exhibit in the British section. This makes me so much wouldn't exhibit at all unless I could go so with my own countrymen. I'd put them on the walls of the Salon where there will be found true representations of American art. American literature is going to get a long and so it is unfortunate for American artists and American art that this defection has occurred.

"After suffering from severe dyspepsia over twelve years and using many remedies, Mrs. Funston, (we have heard of her gallant husband), went to Manila as a bride with two other brides to meet their husbands in 1898. She was surprised to see the fine stone quay and splendidly paved streets and the remarkable number of vehicles with horses attached, little larger than dogs, thin and sore. She speaks of the lay, the gorgeous sun-set, and the picturesque costumes of the women. American women were scarce there in '98 and great crowds of the natives would follow Mrs. Funston and her friends when on the street. The heat is intense from nine to four but by five the whole city turns out on the Plaza in hand given concerts. Mrs. Funston is a pleasant writer.

The press seems to be as unanimous as the Senate Committee on privileges and elections in the opinion that William Andrew Clark, Democrat of Montana, ought to be denied his seat in the Senate. His seat should be declared vacant, indeed, if it is true that he gained it by large expenditures in connection with his election which presented a free choice of a United States Senator by the Montana Legislature. But if on the other hand, it is a conspiracy concocted by his political enemies, then let the "hammer of truth" prove it false. But surely, if all the Senate seats were declared vacant that was obtained by the use of money, Mr. Clark would not be the only one to go. Aren't there many who have bought their seats, I wonder, but who have not been "hammered out"—that is, officially? A year ago Indiana elected a young man without money. Illinois, we are told, never knew the sale of a seat nor Iowa. I believe this is just as it should be. The great difficulty with which we now have to deal is the use of money in ways that do not challenge the public notice, but which all the same rules out a poor man of ability and trust and merit. The Senate is a "club" for millionaires who can reach it through their purses. The "copper king," of Montana, is not alone. Mr. Clark was only more open, more bare-faced and failed to cover up his tracks or burn the bridges behind him. Hence the committee was obliged to declare his seat vacant.

I am immersed in Rudyard Kipling's "The Light That Failed." I like it immensely. "Soldiers Three." "The Gate of the Hundred Sorrows" ranks well with me. I like Kipling and I don't like him—paradoxical, isn't it? But he's poetic, so pathetic, so tender, and just as cold as another. One can cry over his "Baa, Baa, Black Sheep" on some pages and on the next let forget tears for indignation. Upon the whole Kipling will tell the world long after his light has faded on this shore. The man who has mind to some English views of Miss Johnston's new story, "To Have and To Hold," which in England has been re-christened "By Order of the Company" in accordance with the usual British custom to show decided appreciation. "To Have and To Hold" is as popular in England it seems as in America and proves that women are interestingly active in modern fiction of

THE TOOTHBRUSH PLANT.

One of the most curious plants in the world is what is called the toothbrush plant of Jamaica. It is a species of creeper and has nothing particularly striking about its appearance. By cutting pieces of it to a suitable length and fraying the ends the natives convert it into a toothbrush, and a tooth powder to accompany the use of the brush is also prepared by pulverizing the dead stems.

In the spring the birds are singing. As they build their summer home, Blades of grass and buds are springing. Over the mead the cattle roam. In the spring your blood is heightened. With the germs that cause disease, Humors, boils, are designated. Signals warning you of these. In the spring that like leprosy, Makes you every day shrink. Make you feel like being, stealing. Rather than engage in work. But there's something known that will a Man to health and vigor lead. You will find Hood's Sarsaparilla. Just exactly what you need.

A LONG WAITER. A clergyman in Scotland desired his hearers never to call one another "hears," but when any one said "The thing that was not" they ought to whistle.

One Sunday he preached a sermon on the parable of the leaves and figs. He had scarcely pronounced these words when he heard a loud whistle. "What's that?" he said. "It's I, Willy, Willy, the baker." "Well, Willy, what objection has 'ye to what I ha' told you?" "None, sir, only I want to know what sort of ovens they had to bake those figs in?"

CANDIDATE FOR CONGRESS.

Bardston Selected As The Place Of Nominating A Candidate.

The Democratic congressional committee of the fourth district met at Bardston last Friday, and called a convention to meet at Bardston on May 24th.

It was resolved that a convention for the purpose of nominating a Democratic candidate for Congress in the fourth congressional district be held in the city of Bardston on the 24th day of May, 1900; that the respective counties in said district shall on May 19, 1900, hold precinct conventions, and select precinct delegates to attend a convention to be held at the county seats of each county on May 21, 1900; and that county delegates to said convention shall be selected by ballot.

The basis of precinct representation shall be one delegate for each twenty-five votes cast by said precinct, provided that each precinct shall have one delegate. Said precinct conventions are to be called to order by their respective precinct committees or in the absence of any Democrat. That the basis of county representation in said district convention shall be one delegate for each 200 votes cast for Bryan in 1896, and one for each fraction over 100.

That the notice of said county and county convention shall be given by their respective county chairmen. That all Democrats who voted for Bryan in 1896, or for Goebel in 1899, and all Democrats who have heretofore affiliated with the Democratic party, and all youths attaining their majority before the November election in 1900, are entitled to participate in said convention.

THE FAMOUS PLANO FLY-WHEEL ATTACHMENT

Is furnished with the Jones Lever Binder. It is a most valuable attachment because:
The Fly-Wheel causes a binder to work with even, steady motion over rough, uneven ground.
The Fly-Wheel causes a binder to be bound tightly without checking the motion of the machine.
The Fly-Wheel causes a binder to run lightly over soft or wet ground, where it would otherwise mire down.
The Fly-Wheel causes a binder to remain in motion while turning a corner.
The Fly-Wheel causes a binder to be bound and discharged after the team stops, leaving the sickle and canvases absolutely clean.

THIS VALUABLE ATTACHMENT IS FURNISHED ONLY WITH THE JONES LEVER BINDER.
The Jones Lever Binder has the simplest knott in the world, and it has one-half less pieces than its simplest rival. It is the most perfect in the world.

HAVE YOU SEEN HANSEN'S Wonderful Calculating Pencil?

The Pencil that figures with a twist of your wrist?
That figures quicker than you can and never makes a mistake?
That calculates anything from 1x13 to 12x24 in the twinkling of an eye?
That gives you hundreds of calculations with the swiftness and accuracy equaling an expert? Have you seen it?

CAN YOU BEAT IT?

Can you tell as quickly as the pencil, for example, how much 11x24.00 is? or 9x11.80? or 23x1.20?
"It is truly a little wonder," says the Pittsburgh Press.
"It is a marvel of ingenious mechanism and has excited a great deal of interest among our readers," says the Boston Traveler.
"An article of the greatest educational merit," says the Youths Companion.
"It is the greatest educational novelty of the day," says the Detroit Free Press.

25c. Value. Special Introductory Price 15c.

THE EDUCATIONAL VALUE

Of this Arithmetical Pencil is based on the highest Multiplication Table it contains. Every person should know it. Yet many never learn it. They are thus hindered in acquiring quickness and accuracy in mental calculations so necessary to business success. It is especially recommended to young people starting in business life and to those with neglected education. Teachers recommend it to their pupils because the use of the pencil imparts a knowledge of these figures in 1/3 of the time required by the usual methods. Even the Indian office of the U. S. government has recognized its educational merits and recommended that the superintendents of all Indian schools be supplied with samples.

THE CALCULATOR

Is made of pure Aluminum and attached to a pencil of standard quality. It fits any common lead pencil. It also has the advantage of being a pencil point protector, a pencil lengthener and an eraser, and it can be carried in the vest pocket.

DIRECTIONS.

Revolve the windowed tube by turning pencil, until the figures you wish to multiply on tube underneath the figure on top cap. The product will appear in window underneath. To multiply 9x11.80, turn 9 on tube under 18 on cap, from the product, 162, shown in window, point off the last figure as cents (\$16.2) and add cipher.

Like the Rest of Us.
"George, dear," she said a night or two before the wedding, "do you think it possible that our love and our married life can become the commonplace, coldly practical love and life of the married people we see around us? Oh, George, my heart would break if I thought so."
"But it will not be so," said George passionately. "We love each other too tenderly, too fondly for that. Our love is not of the ordinary kind, my darling, and our lives will not be so. Ah, no, no, my angel; that can never be."
And the other day she said: "My George, how would you like to go for dinner with apple sauce? You would! All right, then, and don't you forget that feeding bottle for the baby or I'll send you back after it, and mind that you don't keep dinner waiting."
And he, with a falling off of the passion of ten years ago, replied: "All right, Lou, and I wish you'd sew a button on the back part of those striped trousers of mine. You'll find them hanging over a chair in our room. Don't have the poor dog as dry as last time, and you watch the baby's coming. That watering of the eyes looks like measles to me. The ancients believed that rheumatism was the work of a demon within a man. Any one who has had a attack of sciatic or inflammatory rheumatism will agree that the infliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by A. B. Fisher, Cloverport, R. A. Shellman, Stephentown.

One Charge the Judge.
Over a score of years ago Judge Fitzgerald was appointed to the bench of the district that includes Pima and Cochise counties, in Arizona. He found on coming to Tucson that formality was almost unknown in the courtroom. If the days were warm, the attorneys and attendant clerks came with coats. This to him appeared particularly disrespectful. He announced that smoking in the courtroom would not be tolerated and that coats must be worn under pain of the court's displeasure. The grand jury was called. Among the jurors summoned was a heavy miner, who appeared in his usual costume, a dark blue shirt and overalls. "At home, judge," mildly returned the juror.

"Then go and get it! No, not a word, sir," glaring down at him, and he was attempted to speak. "Go home and get your coat, sir. I'll commit you for contempt!"

The miner went silently out. He didn't return that day nor the next, and the judge, after issuing a bench warrant, returned to his home. About two weeks thereafter the original miner, dressed as the court demanded, again stepped within Judge Fitzgerald's range of vision. To the late magistrate he tendered the explanation that his home and coat were both in Harshaw mountains, near the Mexican border, over 100 miles away, and that he had obeyed the orders of his honor in going home after his coat.—Arizona Graphic.

A Quaint Decision.
"In the early days of Court 'Alene,' said an old miner, "I was working with my partners on a claim when we were suddenly startled by pistol shots fired, looking up, discovered a man lying prostrate on an adjoining claim, while his assailant was trying to escape by leaping to the best of his ability. Without stopping to pick up the injured man we gave hot chase to the one trying to escape, whom we finally overhauled, captured and laid before a justice of the peace at Mission, Ida, the nearby town.

"There, as I remember it, it developed that it was an attempt at claim jumping and that the man who had done the shooting was the would be jumper. The evidence was all against him, and word came that the man who had been shot lay all but within the portals of death, the physician giving it as his opinion that he could last only a few hours longer, and thereupon the famed justice of the peace rendered his decision.

"I find you guilty of murder in the first degree," said he severely as he turned toward the prisoner at the bar—that is, provided the victim died, and so that decision stands to this day."

When the Pass Gets Her Back Up.
It is not singular alone that men catch arch their backs. Indeed, when two cats are preparing to fight they do not assume this attitude, but crouch low, just as they do when about to spring on their prey, the body being extended and the hair not in the least erect. But when on meeting a dog suddenly, fear is combined with anger then the cat, standing at its full height, at once arches its back, with an instinctive effort to appear as formidable as possible.

Darwin compares it to the similar attitude of the lynx who stalks and to that of birds which ruffle their feathers and spread out their wings and tail when alarmed. It is noticeable that a cat will also arch its back when in an affectionate frame of mind, rubbing itself against its master's leg. At the same time it slightly raises its fur and holds its tail erect. Its whole attitude is just the reverse of that which it assumes when jealous.

Darwin accounts for this in the following words: "Certain states of mind lead to certain habitual actions which are of no service. Now, when a directly opposite state of mind is induced, there is a strong and involuntary tendency to the performance of a movement of directly opposite nature, though it may be of no service."

Tools and Progress.
Despite all the attacks upon machinery, an age without tools is an age of drudgery and degradation. If once men toiled 10 hours a day, with a single stroke Watt's engine cut off two hours in the morning for rest and two hours at night for reading. The modern home, with a thousand and one comforts, is the gift of tools. We now compel steel springs, steel knives, steel wheels and steel wires to do our work. Take away our tools and civilization would go back 100 years.—Newell Dwight Hillis in Woman's Home Companion.

Water in Porto Rico.
The water supply of Porto Rico, because of its abundance and freshness from the mountain streams, ought to be pure and good for use. But it is far otherwise. A thick bed of rank vegetation is ever decaying beneath the new growth rising above it, and the water filtering through the rotten mass becomes not only steeped with the life of decaying roots, leaves and grasses, but is full of insects and worms.

"Excuse me," said the shabby looking young man. "But would you be so kind as to cash this gift for me?" "Why don't you get somebody that knows how to cash it?" asked the old cooper, picking up his carpet sack from the curb.

"The people that know me won't do it," blurted out the young man, turning away to hide a tear.

"Poor fellow!" sympathetically answered the farmer as he took out his wallet. "How much is it?"

And still they say money's hard to get.—Kansas City Independent.

SCROFULA The Blighting Disease of Heredity.

In many respects Scrofula and Consumption are alike; they develop from the same general causes, both are hereditary and dependent upon an impure and impoverished blood supply. In consumption the disease fastens itself upon the lungs; in Scrofula the glands of the neck and throat swell and suppurate, causing ugly running sores; the eyes are inflamed and weak; there is an almost constant discharge from the ears, the limbs swell, bones ache, and white swelling is frequently a result, causing the bones to work out through the skin, producing indescribable pain and suffering. Cutting away a sore or diseased gland does no good; the blood is poisoned. The old scrofulous taint which has probably come down through several generations has polluted every drop of blood.

Scrofula requires vigorous, persistent treatment. The blood must be brought back to a healthy condition before the terrible disease can be stopped in its work of destruction. Mercury, potash and other poisonous minerals usually given in such cases do more harm than good; they ruin the digestion and leave the system in a worse condition than before.

S. S. S. is the only medicine that can reach deep-seated blood troubles like Scrofula. It goes down to the very roots of the disease and forces every vestige of poison out of the blood. S. S. S. is the only purely vegetable blood purifier known. The roots and herbs from which it is made contain wonderful blood purifying properties, which no poison, however powerful, can long resist. S. S. S. stimulates and purifies the blood, increases the appetite, aids the digestion and restores health and strength to the enfeebled body. If you have reason to think you have Scrofula, or the best blood purifier and blood builder known, as it contains no poisonous minerals. S. S. S. is a pre-eminent remedy for children.

When my daughter was an infant she had a severe case of Scrofula, for which she was under the care of physicians for more than two years. She was worse at the end of that time, however, and we were despaired of her life. A few bottles of Swift's Specific cured her completely, as it cured me, and which are beyond the power of other so-called blood remedies. S. J. Thosom, Monticello, Ga.

Our medical department is in charge of experienced physicians who have made Scrofula and other blood diseases a life study. Write them about your case, or any one you are interested in. Your letter will receive prompt and careful attention. We make no charge whatever for this.

LEUTENANT GIBSON won the Derby in 2:06. Florian and Thirive came in second and third.

SOME of the progressive women of Cloverport are now turning their attention to physical culture.

It takes money to run a city council with a thousand-dollar bid in sight few councilmen could withstand a good yeg nibble.

The popularity of Cloverport as a convention city is evidenced by the two important conventions to be held here this month. The Old Maids' and the Milkmaids'.

MR. JOHN AKERS, mentioned in the News some time ago as the grower of fine wheat at Irvington, says that he will be disappointed if he fails to realize from thirty to forty bushels to the acre.

The first issue of the Breckenridge County Democrat is on our desk. It is a "genuine organ" full of good things for the politicians for whom it is printed, and we congratulate the editor, Mr. Worcester, of Fordville, on his new venture.

WILLIS GREEN, the large lumber dealer of Falls of Rough, has been greatly complimented on his hardwood lumber by northern purchasers. He is doing a mammoth business, running two saw mills constantly with a daily capacity of 20,000 feet.

MR. JOHN ELLIOTT, of Owensboro, one of the largest dealers in leaf tobacco in western Kentucky, was at Kirk Monday negotiating for P. Sherman & Bros. purchase. Mr. Elliott is of the opinion that there will be a very heavy crop planted this year and in consequence prices will be much lower next year.

LOUISVILLE, HENDERSON & SONS, Louisville stock has been in good demand at 18 1/2 and 19 bid, with sheep out that is good to buy. There has also been an increasing demand for the bonds, which have advanced on steady buying from 97 1/2 to 99 1/2. About \$20,000 were bought last week, the last sale being at 99 1/2.

If all mine operators were like Mr. J. C. Blair, manager of the Pittsburgh coal company at Baskett, there would be no miners' strikes. This large enterprise has been running right along during the striking time with no trouble whatever. Mr. Blair is an efficient manager, employs no union men and adjusts all difficulties with justice to the company and to the employees. He is the right man in the right place.

The marriage of missionaries was one of the interesting subjects discussed at the ecumenical conference in New York. The question whether missionaries should marry before or after they reach their field of labor was argued pro and con. The matter was concluded by the testimony of a missionary from China who said that the climate in his part of China proved so fatal to women that the majority of missionaries there were now living with their third wives and that he knew one man who had been in China forty-six years and had buried six wives besides leaving one in a graveyard in America.

The "Henderson Route" is doing itself proud this month in the matter of rates. The days when you go to Louisville on a reduced ticket you go to Louisville and back with no money in your pocket. This is a great accommodation to our country folks in giving us an opportunity to attend the races, the festival of music and the reunion of Southern veterans. But the "Henderson Route" also does the right thing. It is a road whose official positions are filled by men who understand their business, the wants of their patrons and in a happy combination of the two, contrive to make their road one of the most desirably popular and best patronized in the state.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical profession. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for lists of testimonials.

Success to the News.

Mr. June Ater is quite ill.

Corn planting is almost over.

We had a good rain Sunday.

Miss Mattie Dowell called on Misses Bettie and Mary Mercer Wednesday evening.

Clifton Mills, what is the matter with you? We want to hear from you often, so get a move on yourself.

We are having a splendid Sunday-school at this place. Mr. Ater, our superintendent, is very attentive to his work.

The Addison brothers are at work at the church and are getting along splendidly. One of these days we are going to have a new church.

Mr. and Mrs. Charley Avitt entertained quite a large crowd Saturday night. The Hickerson brothers were in attendance with their guitars.

The easiest and most effective method of purifying the blood and invigorating the system is to take DeWitt's Little Early Risers, the famous little pills for cleansing the liver and bowels.—A. R. Fisher.

JOLLY STATION.

Judson Owen who has been seriously ill is on the road to recovery.

Joseph Frank's little girl got her leg dislocated last Friday by falling out of a little wagon.

Mrs. Letitia Bricker, Clover creek, spent Saturday and Sunday here with her daughter, Mrs. Rhoda Wright.

"DeWitt's Little Early Risers are the finest pills I ever used."—D. J. Moore, Millbrook, Ala. They quickly cure all liver and bowel troubles.—A. R. Fisher.

Thousands have Kidney Trouble and Don't Know It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too much water and swelling of the face is also a sign of kidney trouble; if it is in the back it is a sign of kidney trouble; if it is in the back it is a sign of kidney trouble; if it is in the back it is a sign of kidney trouble.

What to Do.

There is comfort in our knowledge so often expressed, that Dr. Kilmor's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and secures pain in passing it, or bad effects following use of liquor, water, beer and strong drinks, and the necessity of being compelled to go often during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free, when you send Dr. Kilmor's Swamp-Root to J. C. Binghamton, N. Y. When writing mention reading this generous offer in this paper.

CHURCH NEWS.

The W. C. T. U. met at the Baptist church Monday night.

Rev. T. V. Joiner will attend the District Conference at Havesville this week.

Rev. Driskill will begin a protracted meeting at the Christian church Sunday morning.

Rev. W. B. Rutledge preached two interesting sermons at the Baptist church Sunday.

The Ladies' Aid and Missionary Societies met at the Methodist church Monday afternoon.

Rev. W. B. Rutledge will leave today for Hot Springs, Ark., to attend the B. Y. P. U. on the 11th and the Southern Baptist Convention which lasts five days beginning on the 12th.

It is just as easy to drift into danger as to drive into it. The progress is slower but the end is equally sure. It is the gradual progress of drifting which blinds to the danger. Men and women drift into ill-health in this way. There is a little feeling of oppression after eating. After a time it passes away. Some day it returns and brings another symptom—headache, perhaps. Something is done to relieve the headache, but nothing to relieve the cause. So one more victim goes drifting on to the rocks of disease. Young women who are teaching or studying are very apt to become victims of disease of the stomach. They eat indigestibly, in some cases, and in general the brain is too occupied to allow the stomach the blood necessary to carry on its function. Hence in time the organs of digestion and nutrition are totally deranged, and the young graduate who has been a chronic invalid. The timely use of Dr. Pierce's Golden Medical Discovery will avert such a condition; the faithful use of it in chronic cases will effect a complete cure.

"I was troubled with various headaches, often accompanied by severe vomiting," writes Miss Mary Bell, daughter of Isaac D. Co., Texas. "I was very irregular and nervous. I could eat almost nothing, and sometimes I was so sick that I could not get out of bed. I was entirely out of work, and I feared a severe sick spell and was very much distressed. I was advised to try Dr. Pierce's Golden Medical Discovery, and before finishing the bottle I was able to undertake the duties of my public life, and contracted to do so." Dr. Pierce's Pleasant Pellets cleanse the complexion and sweeten the breath.

BEWLEYVILLE

Philip Cain has left our town.

G. L. Stith has a "blue ribbon" wheat field.

Dr. Walker was home a night last week.

See our Sunday-school Convention program and be sure to come.

Thos. Cain attended the Republican Convention at Irvington Saturday.

We will have Children's Day when we can. Meanwhile we will work and keep cool.

Mr. and Mrs. Alonzo Bennett are unsurpassed when it comes to treating their friends well.

Sunday was quite a rainy day but Rev. Mell was on time and preached one of his good sermons.

Let us all go to Irvington the night of May 21st to hear Ralph Bingham. It will be a treat not to be missed.

Modesty is an excellent thing but the merchant who is too modest to tell people about his store and his wares is too sensitive for this world. You must not only sell cheap but let the people know about it. This is our doctrine.—The Eclipse.

The editor of the Hancock Clarion has just come for complaint at us. It was Havesville, a little town up in Meade county, we had in mind when that item was written, any how the printers got it mixed up with Havesville, the Lord only knows.

Parties going to Kirk next Sunday are expected to take lunch, that is those who can conveniently do so. There will be an unusually large crowd of people on the grounds, and it is desired that there be enough provisions for all. If everything is favorable there will be a large crowd present.

Mrs. Sutton, the well known milliner of this city, returned from Louisville yesterday where she had been to inspect the summer styles for the ladies in late &c. Mrs. Sutton always carries a large and well selected stock in her line, and her long experience in this business enables her to give prices as low as any.

Now that the Twentieth Century Movement is on such a boom, why is it that we can't hear from the Foreign Missionary Society in the Elizabethbeth District? Surely they have held their Easter meetings. Mrs. Grinnell announced one for Brandenburg society. Miss McIntire, Mrs. Gardiner, of Irvington, Mrs. Cain, of Bewleyville, Mrs. Kurtz, of Webster, Mrs. D. S. Campbell, of Elizabethbeth, all of you, are requested to report.

Mrs. J. H. L. Moorman, who has been quite ill for several days, is improving rapidly.

It is a rule of the White House that no bird shall be allowed to warble, or even live within its walls. The wife of President Hayes made this rule years ago, and it has been observed as a sacred precedent. When Mrs. Cleveland first went to the White House to live after her marriage, she had a pet canary. But the rule against birds was explained to her, and she gave the bird away.

SOUTHERN
PROGRESS.Northern Capitalists Are Seek-
ing Investments in The
South.

GOOD SCHOOL AT

ABBEVILLE, MISS.

ABBEVILLE, MISS., May 5, 1900. MR. JOHN D. BARRIE, DEAR SIR:—Before leaving Kentucky a few of my friends asked me to write to the News occasionally, but I have been very busy and have neglected to do so. The News is a welcome visitor at our home here.

I am still principal of the Normal School at this place. We teach ten months. This is my seventh season here. We have enrolled 163 students during the present session and about 30 of these are boarders from other counties. The tuition rates are \$3 and \$5 per month. I can easily make more than the salary here that I did in Hardinsburg.

This is a cotton country. The farmers are about through planting cotton. Some of it has already been sold, to the delivered first fall, at 7½¢ per pound. The negroes work the cotton almost entirely, but the white man is there when selling time comes "by a large majority." Capitalists are looking for new fields of investment and many towns are granting liberal concessions to companies who want to build factories. I think in a few years the greater part of the cotton crop will be manufactured in the southern states. What the south needs, or think they need is, Expansion, Capital, The Nicaragua Canal and Ten Cent Cotton.

As I do not wish to encroach too much on your valuable space, I will close by saying to my old friends and relatives in Breckenridge county that I have not forgotten them nor have I ceased to be interested in their welfare.

I expect to spend a part of this summer in the University of Chicago. While there or at some other time in the future I will contribute a few more random thoughts to the columns of the News.

Respectfully,

K. HARMON.

I consider not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken badly with flux and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease.—J. W. Lynch, Dorr, Va. This remedy is sold by A. R. Fisher, Cloverport, R. A. Shelman, Stephenson.

LOUISVILLE MUSIC

FESTIVAL.

Three Evening Concerts and Two

Matinees.

The Festival Association has arranged to make this the third annual music festival at Louisville the most successful yet given. No expense has been spared and with Medea and Sembrich and Nord and Miss Lonsdale, the celebrated violinist, on the program, the success of the occasion is assured. The musical club chorus of 250 voices will also be a great feature of the festival.

A one-line rate has been secured on all the railroads and a number of out-of-town people are expected to attend the three evening concerts, May 14, 15 and 16 and the matinees Tuesday and Wednesday.

An Epidemic For Whooping Cough.

Last winter during an epidemic of whooping cough my children, contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for cough and naturally turned to it at that time and found it relieved the cough and effected a complete cure.—John E. Clifford, Proprietor Concord House, New-wood, N. Y. This remedy is for sale by A. R. Fisher, Cloverport, R. A. Shelman, Stephenson.

TWO ACCIDENTS.

One Man Loses A Hand And Another Hurts His Leg.

BATTLETOWN, Ky., (Special).—Mr. Jeremiah Pike, a sawyer who lives about two and a half miles from here, fell against a saw last week and got his hand cut off. The saw entered between the thumb and forefinger and came out near the elbow making a very serious wound.

Another unfortunate accident last week was that of Mr. Ed. Green, who hurt his leg while loading ties at St. Land. The muscles were almost severed from the bone.

REUNION OF PUPILS.

More Than Three Hundred Former
Pupils of Science Hill Will Meet
At Shelbyville in June.

There will be gala time in Shelbyville the first week in June, says the Louisville Times. Old Science Hill Academy will celebrate its seventy-fifth anniversary, and Mrs. Foyner, widow of the school's first director, Dr. Foyner, has determined to make the occasion a memorable one in the annals of Shelbyville. She has written to all former pupils in the south and west, inviting them to be guests at the school during the week, and already over three hundred responses have been received and more are coming. Many of the children who attended the academy are grandchildren of former pupils. The place is filled with memories of other years, and this reunion of pupils from all over the country will be a joyous affair. There is nothing more delightful, after all, than having old schoolmates and teachers meet at least once a year under the roof of the old schoolhouse.

1,000,000 DEATHS.

From Cholera During the

Past Year.

The Germ of This Fatal Disease is

Lurking Everywhere! Thousands

of Dollars Saved by This

Wonderful Discovery.

Hundreds of thousands of dollars have been lost in the poultry business on account of the devastation among the flocks, caused by cholera, roup, gaps, and other fatal diseases. There have been many remedies advanced, but none seem to be so successful as the American Poultry Mixture. This will cure chicken in the latest stage of cholera and roup, and is excellent for gaps. Do your fowls suffer from violent diarrhoea, dropping of the wings, stupor or excessive thirst? These are the first symptoms of cholera. Cholera is a germ disease and being infectious spreads rapidly through the entire flock. Take time by the forelock; don't stop to experiment with unreliable or untried remedies. Use this mixture at once and the sanitary measures they recommend in connection. Don't give the fowls up. Cholera is a terrible disease, but this remedy cures it every time. It is also guaranteed for rook, which can be told by house breath, scalded eyes, diarrhoea and the nostrils resembling charcoal. Fifty dollars is offered for a cure of the Mixture will not cure. If some of your fowls are diseased, it will prevent the rest from catching it. Try it. It is cheap, reliable and effective; a scientific preparation goes more than three times as far as any other remedy; does more good than all other combined. It is used and endorsed by the American Poultry Mixture, he's behind the age. In that case send \$1.00 for sample box to American Mfg. Co., Corrae, Ind.

BATTLETOWN.

Mrs. Jacey Bennett is seriously ill this week.

Mr. Till Bennett was on the sick list a few days last week.

IN THE STATE.

The Races At Louisville Were Well
Attended.

Joseph Moray, assistant cashier of Bankers & Co. Louisville, committed suicide at his home last week. He was more than three thousand dollars short in his accounts.

At a meeting of the church extension board at Louisville last week ten of the twelve bishops of the church were present.

Fifteen cases of small pox were reported in Ballard last week. This disease is also spreading in Hardin county.

One man was fatally burned and three others seriously injured in a dust explosion in a department of the cellulose plant at Owensboro last week.

Mr. W. F. McGill, aged ninety years, one of the most widely known and popular men of his county, died at Bardonia last week.

The annual decoration of the Confederate graves in the Louisville cemeteries will take place on June 3rd, the last day of the reunion.

The Marden Company of Owensboro has received an order for 100,000 pounds of cellulose to be used in packing the hull of Admiral Dewey's former ship, the Olympia.

Glasgow had a \$150,000 fire last week. The insurance was between \$90,000 and \$100,000.

Rev. Abraham Hackett, an aged Baptist minister of Henderson county, died at Zou last week. He was credited with saying the shortest marriage ceremony on record: "I pronounce you man and wife."

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mother's and grandmothers never thought of using anything else for indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appetizer, Nervous Prostration, Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by—A. R. FISHER.

SALESWOMEN understand what torture is. Constantly on their feet whether wet or ill. Compelled to smile and be agreeable to customers while dragged down with some feminine weakness. Backaches and headaches count for little. They must keep going or lose their place.

To these Mrs. Pinkham's help is offered. A letter to her at Lynn, Mass., will bring her advice free of all charge.

MISS NANCIE SHORE, Florence, Conn., writes a letter to Mrs. Pinkham from which we quote:

"I had been in poor health for some time, my troubles having been brought on by standing, so my physician said, causing serious womb trouble. I had to give up my work as just bundle of nerves and would have fainting spells at monthly periods. I doctored and took various medicines, but to no relief, and when I wrote to you I could not walk more than four blocks at a time. I followed your advice, taking Lydia E. Pinkham's Blood Purifier in connection with the Vegetable Compound and began to gain in strength from the first. I am getting to be a strong and healthy woman and I owe it all to your medicine. There is none equal to it."

for I have tried many others before using yours. Words cannot be said too strong in praise of it."

Mrs. POLLY FRANK, Meads, Kan., writes:

"DEAR MRS. PINKHAM—I feel it my duty to write you in regard to what your medicine has done for me. I cannot praise it enough. Since my girlhood I had been troubled with irregular and painful periods and for nearly five years had suffered with falling of the womb and whites. Also had ovarian trouble, the left ovary being so swollen and sore that I could not move. Now, thanks to your wonderful medicine, that tired feeling is all gone, and I am healthy and strong."

Cutting around the eyes should be avoided, unless you are willing to make yourself a subject for experimenting in surgery. This is unnecessary. Sutherland's Eagle Eye Salve will cure your eyes and granulated lids when all others have failed. It strengthens the weak eyes.

CONFERENCE OF MISSIONS.

Faith and Fraternity The Controlling Features of This Meeting.

METHODIST CONFERENCE
AT CHICAGO.

The great Ecumenical Conference has made lasting impressions at the close of a noted career, say our Breckensridge correspondent. It has been an immense conference of Foreign Missions. Carnegie Hall has perhaps never held a more deserving one and may never again. Surely the name "Ecumenical" is the proper title for that vast body of men and women. We must remember one element that pervaded that assembly that cannot be said for most others—no selfish motive predominated. Each had gone to wage a battle against wrong, all were consolidated and united in one central thought—"Throw out the Life-Line," "Spread the Gospel of Christ." All the great Protestant communions were represented. Fraternity and brotherliness existed. The whole conference

spirit has been one of faith and hope and good will. Our southern delegation was large. President McKinley extended a national welcome and Governor Roosevelt followed with same. Ex-President Harrison's response was characteristic of him, graceful, quick and teeming with strong religious convictions.

Not only those fortunate enough to be present will be benefited by this great gathering but as the papers and discussions will be gathered into volumes for publication all lands will know and feel the influence of those gathered voices from all over the world.

Full well I feel that no one in that throng of consecrated devotees was more interested than our own great missionary friend, Miss Tula Daniel. I hope to have through these columns one of her own pleasant stories telling of the impressive scene and of the great work accomplished.

All these thoughts naturally bring us to look in upon the Methodist Conference once more assembled at Chicago which will be in session a month. Bishop Andrew made a strong address May 3rd. He said while this country had increased fourteen fold in a hundred years the M. E. church had developed ninety-seven fold. He deplored the miscarriage of the anti-slavery law and said the church would not abandon its position on the liquor question. He was strong on marriage, divorce and re-marriage. All amendments that were unwholesome came in for condemnation. The Bishop said "debauching amusements." Well, not only Bishop, ministers and church

members condemn and denounce such amusements, but all sane individuals. A woman who in the slightest degree contemplates such amusements is unworthy the title of lady. Excess in innocent amusements is also to be denounced. But innocent pastimes and innocent recreations are practiced by every one in some form. "Be it unto you according to your faith."

STRONG MINDED WOMEN.

State and its politics, the civilization of the State and its reputation, depends on them. Oh, let us come down out of the clouds of clerical aloofness, and get our feet on a solid footing of plain common sense and logic. If women are even half as good as Bishop Dudley says they are it is very poor statesmanship to exclude so much goodness and virtue from direct participation in the affairs of government. If they are to carry religion into politics and save the civilization of the State they must have the ballot. No general sends his soldiers into battle unarmed, and no statesman ever expected a disfranchised class to revolutionize politics and save the State. The Emergency Association has a membership of three thousand. If they take up their "good citizenship" work in sober earnest, they will shortly be about three thousand new members added to the Kentucky Equal Rights Association.

Science has found that rheumatism is caused by uric acid in the blood. This poison should be excreted by the kidneys. No rheumatism with healthy kidneys. Foley's Kidney Cure always makes them well.—Moorman & Owen.

INDIGESTION

If you have it, you know it. You know it all about the heavy feeling in the stomach, the formation of gas, the nausea, sick headache, and general weakness of the whole body. You can't have it a week without your blood being impure and your nerves all exhausted. There's just one remedy for you—

AYER'S Sarsaparilla

There's nothing new about it. Your grandparents took it. 'Twas an old Sarsaparilla before other sarsaparillas were known. It made the word "Sarsaparilla" famous over the whole world. There's no other sarsaparilla like it. In age and power to cure it's "The leader of them all."

Ayer's Pills cure constipation.
"After suffering terribly I was cured by your Sarsaparilla. Took three bottles and now feel like a new man. I would advise every fellow creature to try this medicine. For it has stood the test of time and its curative power cannot be exaggerated."

If you have any complaint whatever and desire the best medical advice you can possibly get, write the doctor. He will be glad to advise you. No charge. Without cost. Address: Prompt reply. Dr. J. C. Ayer, Lowell, Mass.

IRVINGTON.

Paul Frost is in the city on business. Will Shellman is in Louisville on a short visit.

Mrs. Mary E. Tyler is visiting Mrs. Baily and other friends.

Mrs. D. C. Henson was in the city Thursday and Friday.

Miss Rosa Moorman of Cloverport is at the home of F. H. McGehee.

Don't fail to visit Dr. Renfrow's office during court week at Hardinsburg.

Mrs. Breachler of Owensboro is the guest of her brother, J. R. Wynn.

Miss Corbett will be in the city Thursday to lay in a new supply of goods.

Seats for the Bingham Entertainment are on sale at McGlothlin & Piggitt's.

The Ax Handle factory is a certainty and will be in operation at an early date.

Mrs. Sallie Beauchamp and baby are visiting her parents, Mr. and Mrs. Henry.

Mr. and Mrs. A. B. Coulman have gone to Vine Grove for a lengthy visit to their children.

There is strong talk of a stock company forming here and opening a canning factory.

W. E. Brown continues to improve his store and the new pavement is quite an addition.

Clarence McGlothlin came down from Louisville Sunday to spend the day with the home folks.

Charlie Marshall, wife and baby are at home for a short stay with G. T. Marshall's family.

W. E. Brown has given an order for lumber to build a handsome house on his lovely site in Woodland.

Mrs. Galloway, Cloverport, has purchased a house and lot in town and we hope to see them move in very soon.

Mrs. Leticia McGlothlin and Miss Lillie McGlothlin have left for a visit to Mrs. H. F. Herndon, Grayson Springs.

Miss Jane Warfield, one of Cloverport's most interesting young ladies, was calling on friends between trains Tuesday.

There is a growing demand for homes to rent in the town of Irvington, though some people do any business in leaving it.

Richard Herndon is on the sick list, but with Dr. Moorman's skillful treatment "his" hoped he will be out again soon.

R. B. McGlothlin is agent for the McCormick Harvesting machines, binders and mowers. This machine is not only the best now on the market but offers the farmers the strongest warranty.

On the 21st (Monday-night) at the Baptist church the people of Irvington and neighboring towns will have an opportunity of hearing and seeing that magnificent entertainer, Ralph Bingham.

Mr. Bingham comes to us highly recommended by those who have heard him and they assure us he rivals Perry, Kys, Nye, Riley, Oumcock and others, and whatever role he assumes, whether impersonator, vocalist, violinist, humorist or story-teller, he is unrivaled. Let every body come and enjoy this intellectual treat of a very high standard.

BRANDENBURG.

Pussy Harris spent Sunday at home from Cloverport.

Mr. and Mrs. Eugene Hardesty will entertain at dancing the week.

Mrs. D. W. Lewis is spending the week with Mr. R. J. Patterson's family.

Henry Cowley, of Louisville, spent Sunday here, the guest of Miss Lala Bland.

Mrs. J. W. Lewis and Miss Bess Lewis visited Mrs. Jesse Herndon at Irvington last week.

Col. Brennan and wife, of Evansville, spent Sunday with their daughter, Mrs. E. T. Bishop.

Robert D. Pusey came over last Sunday from Indianapolis and spent the day at home.

Mrs. G. L. Nealus and Jimmie Ditto were down last week from Louisville, the guests of Mr. Fannie Ditto.

Mrs. Sallie Burch entertained the "X" V" club Tuesday afternoon from 3 to 5 with games and music, less and cakes.

Miss Lena Nevitt and Ruth Phillips visited Miss Jennie L. Woolfolk last week. Miss Woolfolk has been quite sick.

Miss Jen Hardin entertained last Saturday evening for Misses Mary Lewis and Sallie Elder. A pleasant program is reported.

Ralph Bingham will give an entertainment at the Court House Saturday night, May the 10th. Tickets 40, 30 and 20 cents. Don't miss it.

Mrs. F. H. Rhodes entertained the sewing club most pleasantly on last Thursday afternoon. Mrs. Eugene Hardesty joined the band.

The Woman's Missionary society will meet with Mrs. Ginnie Phillips Friday afternoon. Mrs. W. Lewis will read the regular monthly leaflet.

Dr. D. C. Pusey has gone back to Louisville for treatment by electricity. He is improving and we hope he may be entirely relieved of rheumatism.

R. H. Nevitt, D. M. Duncan, D. S. Richardson, Elvira Wynn, Dr. P. H. Nevitt, H. K. Ditto and Will Roberts saw Lieut. Gibson win the Derby.

Dr. Pusey and Miss Maydee Pusey have returned from Louisville. We all miss Maydee more than most anybody in our circle and are always so glad to welcome her home.

Children's Day services will be held at the Methodist church the third Sunday in this month, May 20th, at 10:30 o'clock. Special singing and an interesting program. Come everybody.

Doc Ben Springs or the Old Mill summer resort will open June 1st. Pleasant picturesque, quiet, with fine sulphur water and cold fresh water. Music and amusements every evening.

How sweet some people are in this world! They never see broken down graves or neglected fences, but they invariably look clear over to find the flowers that are blooming. They hunt virtues and ignore follies.

Mrs. Taylor Haynes has returned from Paducah where she has been for six weeks with her daughter, Mrs. Gene Gendry, nee Lida Haynes, to whom we extend congratulations on the arrival of the first-born—Bos Kohle.

Will McGeehan will remain this year at home at his father's request, to take charge of the farm. He gave up a lucrative position in Louisville to do so. Will is an all-round, fine fellow and made the sacrifice willingly and we are all glad to number him as one of us.

Rheumatism is conceded to have its origin in a poisoned condition of the blood and to be most successfully treated by HERBINE, which acts upon the liver, kidneys and other blood purifying organs, thereby diverting the system of the offending agents. Price, 50 cents.

Mrs. H. C. Rawlings, of Kansas City, was here several days ago to see Mrs. Alanson Moorman who is ill at her home, Alanson Moorman. Mrs. Rawlings was looking well and her old friends were glad to see her once more.

Mrs. Moorman is nearly ninety years of age. Her daughters, Mrs. Boggess and Mrs. Finley are with her.

Charlie Casperke has been confined to his bed for several weeks. He is patient, cheerful and always glad to see his friends. Charlie is an exceptional character. Had he the physical ability as he has mental capacity and spiritual inclinations he would be one of the brightest stars in the galaxy of brilliant minds.

As it is, he has been a power.

Judge and Mrs. S. P. Woolfolk entertained at dancing last Thursday night for their daughter, Miss Lela. About fifty guests were present and a most enjoyable time was spent. Mrs. Woolfolk is a great lover of music and flowers. She plays well herself and her little girl has thirty-six varieties—the largest and prettiest I ever saw. Mrs. Woolfolk combines the substantial with the ornamental in three hundred young chickens at least.

The community and the reading club most especially, were disappointed that Miss Alexander failed to secure the "Twelve Pictures," re-productions from the greatest in the world, and therefore could not give her program here as scheduled. However, the club had a most interesting, instructive talk from her at Mrs. Grinnell's on Wednesday afternoon. She had the small Perry pictures which

are in themselves beauties from Miss Alexander's analysis.

That classic event at Churchill Downs, May 3rd, will be handed down as a most memorable one. The crowd was the largest in years and the betting was the most for many years. \$1,500 and \$2,000 were pulled down by some, while \$500 bets were in order. Lieut. Gibson was easily the king of the track and felt that he had a right to become somewhat surly after his triumph.

He is just like lots of folks, you know, prosperity, homage and applause turned his head, hence his rebellion to his groom. I love a pretty horse, a fast horse, I love to see a large, interested representative Kentucky crowd, but I am bitterly opposed to racing and more bitterly opposed to betting. Both are objectionable. Robert Bonner has the finest horse of the age but he never allowed a cent to be bet on one while in his possession, and others could do the same.

"I had stomach trouble twenty years and gave up hope of being cured till I began to use Kodol Dyspepsia Cure. It has done so much good I call it the savior of my life," writes W. B. Wilkinson, Albany, Tenn. It digests what you eat.—A. R. Fisher.

FORDSVILLE.

Roll Godsey has a new store in town. John Bland Sr., of John Store, was in town Saturday.

A large crowd was in town Saturday on account of election at school trustees.

The Fordville Dramatic Club gave an entertainment at Hardinsburg Friday night.

George Oiler cut a severe fall from a wheel Saturday. He was unconscious for a while.

The rain which we needed very much came at last, for which we are very thankful.

The Republicans held a convention here Saturday and elected delegates to the convention to be held at Hartford Monday.

A pound supper was given at Mr. Casteel's out in the country Saturday night. A large crowd of young folks were present and it was an enjoyable affair.

On account of holding a protracted meeting at Greenville, Bro. Ratcliffe failed to fill his appointment Saturday. We missed him very much but brother Crit Truman gave us a good talk.

Fast Recovering.

Little Miss Ethel Ahl, the three year old daughter of Mr. and Mrs. Alex Ahl, of Tinsboro, after a serious attack of pneumonia, improving rapidly. Her improvement is due to the skillful care of Miss Elizabeth Robertson of Louisville, a trained nurse, and the attending physician, Dr. James T. Owen, of this city.

Tilford Harp and wife spent Sunday at Burns.

Prof. J. H. Fife, of Glendene, spent Sunday at home.

Mrs. Nora Allen, of Louisville, is visiting in this vicinity.

The story of Philip Strong was excellent, and well worth reading.

Mr. Robert Norton and wife were at Hardinsburg shopping Saturday.

Quite a number of people from here attended church at Harrodsburg Saturday.

James Norton with his family and mother were visiting at Mr. Pete Ladd's Sunday.

E. M. C. Davi has newly painted his house which is an ornament to our little town.

George Babbas and Charley Durham were on a fishing expedition last week. They had the usual luck of such trips.

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation" were the startling words heard by Mrs. I. B. Hunt of Lina Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful stomach, Liver and Kidney remedy. A Case Disappears. Look it up. Try it. Only 50 cts. Guaranteed. For sale by Short & Haynes, druggist.
